

Ethical Sourcing Policy

Boon Building Services are an established family run business and as such we recognise the need to carry out all aspects of work in an ethical manner.

In accordance with the expectations of our customers, the community, and the requirements of the Law, we endeavour to always operate responsibly within the community and we expect the same from our suppliers.

Maintaining a reputation for the highest legal, moral and ethical standards in our dealings with our customers and other key stakeholders is critical for our ongoing success. This Policy has been developed to compliment our core values of integrity, trust and acting responsibly.

We are committed to working with our suppliers to help improve their labour and environmental practices.

We expect our suppliers to support the ethical standards set out in this Policy with regard to workplace safety, environment, and fair pay and employment conditions.

Our Policy sets out the standards that we expect all of our suppliers to comply with when producing and supplying products for Boon Building Services no matter where they operate in the world. We recognise that full compliance with these criteria may take time for some suppliers, and we are committed to working with our suppliers to implement improvement plans and help them achieve compliance.

Our suppliers must commit to complying with the following requirements, many of which are drawn from the Ethical Trading Initiative (ETI) and International Labour Organisation (ILO) Conventions. These requirements represent minimum standards based on the principles of the United Nations Universal Declaration of Human Rights.

Our belief in this means that we will seek to source and purchase goods which are produced and delivered under conditions that do not involve the abuse or exploitation of any persons; encompassing the following key aspects:

Child/forced labour- BBS supports ILO Convention 138 with regard to the appropriate age of workers and will not work with suppliers who use child labour.

Conditions of work - A safe and hygienic working environment shall be provided, bearing in mind the prevailing knowledge of the industry and of any specific hazards

Health and Safety- Adequate steps should be taken to prevent accidents and injury to health in the working environment

Discrimination – On any grounds

Wages - Wages and benefits paid for a standard working week meet, as a minimum, national legal standards or industry benchmark standards, whichever is higher

Hours of work comply with any Law and benchmark industry standards, whichever affords greater protection

Environment- The facility shall comply with national and local environmental laws and regulations

Boon Building Services is committed to working in partnership with its suppliers to help achieve compliance with this Policy. In the event where any supplier is unwilling or unable to demonstrate continuous improvement towards full compliance with our standards, the trading agreement between Boon Building Services and the supplier will be terminated.
